MORRISPRODUCTS.COM

MORRIS PRODUCTS

was founded in 1994, in Queensbury, NY. Originally created as a supplier of electrical products – wiring devices, lugs and connectors, cable ties and other accessories – Morris' mission was, and remains, to serve the needs of electrical distributors. With a staff of 2 office workers, and 2 warehouse workers, Morris Products soon outgrew its small location, and expanded to a much larger facility in the late 1990s. With that growth, Morris Products expanded with the addition of a full offering of wire management products, compression and mechanical connectors, conduit fittings, and LED Lighting. In 2016, Morris was acquired by DiversiTech Corporation, adding to a strong family of brands for the electrical and HVAC markets.

Today, Morris Products operates out of a state-of-the-art 65,000 square foot facility in Queensbury, NY, and offers electrical distributors more than 8,000 items in inventory, spanning 30 product categories. In addition to the main facility, MORRIS supplies electrical wholesalers from their west coast warehouse in Adelanto, CA, as well as numerous regional rep warehouses.

As a company, we maintain a laser focus on customer service with same day/next day shipping, allowing broken cartons, and no minimum orders. Experience the Morris Advantage, and let us earn your business.

Grounding Bushing Insulated Throat with Aluminum Lug - Zinc

- Used with a locknut to terminate threaded Rigid & IMC conduit to a box or enclosure and to provide a smooth pulling surface
- Thermoplastic liner prevents damage to wire insulation
- Lug provides for bonding jumper to a neutral bus bar
- Resists corrosion, chemicals, and temperature extremes
- Set-screw provided with each fitting locks bushing in any desired position

DIMENSIONS = INCHES

Steel EMT Compression Connectors - Insulated Throat

- Use to connect EMT conduit to steel outlet box, load center, or other metal enclosure
- Heavy Steel Walls, Zinc Plated
- Insulated throat
- Male hub threads - NPSM
- Concrete tight (When Taped)
- UL Listed for EMT Conduit
- 2-1/2" - 4" are also UL Listed for use with Rigid & IMC

DIMENSIONS - INCHES

Aluminum Mogul Conduit Bodies with Cover & Gasket

- Larger body size facilitates pulling of large and heavy conductors
- Specially designed raised cast covers provide additional wiring area
- Moguls are used for pulling straight, 45° or 90° angle turns and/or making taps and splices
- Exclusive built-in rollers facilitate cable pulling
- Smooth, rounded integral bushing in each hub protects conductor insulation
- Accurately tapped, tapered threads for tight, rigid joints and ground continuity
- Covers have captive stainless steel screws to speed installation, prevent 'freezing' of screws
- Includes cellulose/rubber Flex Sealing Gasket
- Length Requirement: distance between centerline of each hub bushing (conduit stop) exceeds six times the trade diameter of the conduit

WITH COVER & GASKET

Above information referenced from tables C1, C4, and C8 in the National Electric Code of 2008. For more information on the following types of conduit, please see the table listed below in the appendix C of the National Electric Code of 2008.
 Rigid PVC Conduit, Schedule 80 -- Table C9
 Rigid PVC Conduit, Schedule 40 -- Table C10
 Flexible Metallic Conduit -- Table C3
 Liquidtight Flexible Metallic Conduit -- Table C7
 Liquidtight Flexible Nonmetallic Conduit (Type FNM-C) -- Table C5
 If you have any other questions see the NEC Code Book.

Aluminum Combination Conduit Bodies LL Type

To Provide Access to Conductors for Pulling, Splicing, and Maintenance. For Rigid, IMC & EMT Conduit

- Threaded for Rigid & IMC Conduits
- Set Screw for EMT Conduit
- RainTight when used with Gasketed Covers
- Die-Cast from High-Strength, Corrosion and Weather Resistant Copper Free Aluminum Alloy
- Flat Back Design for easy mounting close to walls

LiquidTite Flexible Conduit

T750-12100

- Type B Non-metallic liquidtight conduit
- For outside, inside and industrial uses
- Motor & Controls Installations
- HVAC Applications
- Power Distribution to Equipment
- Machine Tool Applications
- Transformer Terminations
- Outdoor lighting Applications
- Joins with metallic or non-metallic connectors
- 176° (80°C) Rated
- U.L. and C.U.L. Listed
- Non-conductive and non-corrosive
- Lightweight for easy handling, transportation, and installation
- Resistant to oil, acid, ozone, and alkaline
- Crush, abrasion, and strain resistant
- Smooth interior ideal for pulling cable
- Easy to cut into lengths, no jagged edges
- Maintains internal I.D. even in tight radius bends
- UL Listed for use as indicated in Article 351 of the 1987 NEC and Section 12-1300 of the 2002 Canadian Electrical Code, Part I.
- UL Listed for outdoor use
- UV resistant

DiversiWhips

T6-12-4

- Liquid tight flexible conduit system
- A labor saving convenience kit for A/C unit hookup
- Also use for heat pumps, refrigeration, hot tubs, swimming pools and outdoor lighting
- Three distinct wire colors for ease of hook up
- One (1) straight and one (1) 90° metallic or non-metallic connector
- 90° connector is removable for straight connections.
- (Second straight connector not included.)
- U.L. and C.U.L. Listed
- Bagged for Pegboard Display Hanging

Polypropylene Stud Bushings

- Fits existing irregular shaped holes in metal studs
Alleviates the need to punch holes in metal studs, weakening the structural member
- Protects wire insulation from abrasion in metal studs
- Bushing allows smooth wire pulling
- No tools needed
- Use these bushings to comply with paragraph 300-4(b)(1) of the 2005 NEC code which states that: "In both exposed & concealed locations where nonmetallic-sheathed cables pass through either factory or field punched, cut, or drilled slots or holes in metal members, the cable shall be protected by bushings or grommets covering all metal edges & securely fastened in the opening prior to installation of the cable"

Snap Bushings

- Eliminate sharp edges & insulate your raw-edged holes in metal chassis
- Easily locks into hole firmly with fingertip pressure
- Protect electrical cables, ropes, utility lines passing through metal
- 1/8" maximum steel thickness
- Made from UL approved Nylon 6/6, 94V-2

DIMENSIONS = INCHES

Snap Bushings with Shutters

- Flexible shutters to accommodate a variety of cable & hose sizes from a minimum of 1/8" to a maximum as shown in the table
- Shutters absorb vibration & cushion cables, tubes, etc.
- Fingertip pressure snap-locks the bushing into the mounting hole
- Universal design to hold various cable ranges
- 1/8" maximum steel thickness
- Made from UL approved Nylon 6/6, 94V-2

Non-Metallic Bushings

Snap Bushings (Open/Closed)

- Protect wires, tubing, etc. from sharp/uneven drilled & punched metal holes with smooth plastic chassis 1/8" maximum steel thickness
- Finger tip pressure snap-locks the bushing into the mounting hole
- Can be applied where cables are already installed
- Can accommodate cables too large to fit through the inside diameter of a standard bushing Made from UL approved Nylon 6/6, 94V-2

Cord Grips - Zinc Die Cast

- Use to Connect S, SD, ST, SJ, SJD and SJT Cord to a Steel Outlet Box or other Metal Enclosure
- Neoprene Grommet for a moisture proof seal
- Simple Installation, cord can be installed without disassembly of the fitting
- Liquid-tight/Oil-tight/Rain-tight
- Suitable for NEMA 4 Enclosures and other wet locations
- Male Tapered NPT Threading
- Colored Seal allows for Easy Identification

Cord Grips / Cable Glands

Metal Cable Glands - NPT Thread

- Used to introduce cables or leads into metal housings, or to introduce reinforced cables
- Designed for use in areas of zone I(2G) and 2I(1D) with no risk of explosion and for cables with and without reinforcement
- In case of systems or housing manufactured according to NEC, the line or the connecting cable must be introduced by conduits, mounting fittings, etc. with NPT threads
- Working Temp: -40°F to 212°F
- Brass Nickel Plated
- IP 68 (NEMA 6P) rated - Submersible & Dustproof

Nylon Cable Glands - NPT Thread

- Seal & Clamp System allows cord connector to tighten in a Circular Sequence on the sealing ring to give Superior Strain Relief without twisting or damaging the cable
- Simply push the cable through the liquid-tight nylon strain relief & tighten nut for quick installation
- Threads into your panel for clearance, locknut included
- Internal Ratchet with Self-Locking Feature protects against vibration
- 'Collet' Design Accommodates Various Size Cords, Cables, Tubing, etc.
- Nylon Body Material is resistant to most common chemicals & solvents
- For Best Results, Use the Minimum Size that accommodates your cable
- No Disassembly Required
- Made of UL approved NYLON 66, 94V-2 (Black)
- IP68 Rated Submersible & Dustproof
- UL Recognized
- 94V-2 Flame Rating, -22°F to 140°F Temp Rating
- Locknut Not Included (Sold Separately)

Nylon Cable Glands - Metric Thread

Cable Glands

- Seal & Clamp System allows the cord connector to tighten in a Circular Sequence on the sealing ring to give Superior Strain Relief without twisting or damaging the cable
- Simply push the cable through the liquid-tight nylon strain relief & tighten nut for quick installation
- Threads into your panel for clearance, locknut included
- Internal Ratchet with Self-Locking Feature protects against vibration
- 'Collet' Design Accommodates Various Size Cords, Cables, Tubing, etc.
- Nylon Body Material is resistant to most common chemicals & solvents
- For Best Results, Use the Minimum Size that accommodates your cable
- No Disassembly Required
- Made of UL approved NYLON 66, 94V-2 (Black)
- -22°F to 140°F Temperature Rating
- IP68 Rated Submersible & Dustproof
- Metric Thread - Does not have NPT threading
- UL Recognized - 22564-22568 UR Listed

*Not UL Recognized

Anti-Short Bushings

- Insulates conductor from cut armor ends on flexible BX or Greenfield conduit
- Inserted into I.D. at termination point
- Overlapping horizontal flange protects against sharp metal edges
- Tapered design assures fast insertion
- Extra length assures positive grip
- Polypropylene material resists weather extremes, oil, moisture and chemicals
- Rated up to 194°F

- UL 467 listed connector for use with Equipment Ground Conductors, Ground Electrode Conductors and Bonding Jumpers
- The Kenny Clamp bonds the enclosure of a service panelboard, load center, separately derived system or switchboard to the grounding electrode conductor per the requirements of NEC 250.8; 312.5(A); 250.53 D(2); 250.52 (A)(1); 250.52(A)(3); 250.66; 250.104 (D)(1); 250.24; 450.10(A)
- Assures good metallic connection and low impedance path for grounding and bonding of electrical equipment
- 12,000 Amp listed and tested
- Brass

Plastic Knockout Plugs - Snap-In

- Plugs electrical knockouts with finger tip pressure
- Snap-In Winged Protrusion for Positive Lock
- Low cost and assures good appearance
- Less costly & safer than steel snap-in blanks
- 1/8" maximum steel thickness
- Made from UL approved Nylon 6/6, 94V-2

DIMENSIONS = INCHES

- Impact resistant, non-corrosive
- Complete with corrosion resistant, hardened steel nails for securing cable to wood, cement, plaster, brick, etc.
- Nail heads are recessed for minimum exposure
- Smooth saddle prevents damage to insulation
- High-grade injection-molded polyethylene
- Resists rot, rust and the effects of temperature extremes

- Plastic insulated staples quickly and easily secure vertical stacks of non-metallic cable
- Electro-zinc plated nails provide strength and durability
- Smooth saddles prevent damage to insulation
- UV-protected Polyethylene saddle resists rot, rust and deterioration
- 1/2" wide, white color

Cable Stacker

Cable Stacker

- Accepts a wide range of NM cables
- Angled nail allows easy installation from any direction regardless of stud positioning and spacing
- Keeps a professional look in exposed areas
- Cables snap easily in between tines for a secure hold
- Makes cable identification simple
- Also used with CATV, Telephone, Instrumentation and Security Cables
- Material: Polypropylene
